

You can save up to 75% of your energy efficiency project costs through incentives from ComEd. That's savings on top of savings.

# Small Businesses

## Your Journey Starts Here

The ComEd Energy Efficiency Program was started to help businesses save money and energy by helping them cover the cost of improving their facilities. We have been working with small businesses just like yours to enhance working conditions, reduce energy-related expenses and better understand your energy use.

ComEd will work around your schedule to quickly identify upgrades that are easy to implement, so you can start your savings journey without missing a beat. Schedule a free assessment when it's convenient for you.

### BENEFITS

Below are a few of the ways an energy efficiency project can improve your small business:

- » Dim spots in your workspace? Updating your **lighting** can improve working conditions.
- » Areas too hot or cold? Improving your **HVAC** equipment can create the ideal atmosphere inside your business.
- » Overactive air **compressor**? A leak assessment will help you keep your system in tip-top shape.
- » Ineffective coolers? Optimizing your **refrigeration** units can curb excess energy use.
- » Air leaking through windows or doors? Upgrading your **ventilation and insulation** is quick, easy and low-cost.

# An energy efficiency project can save your business money and create a more comfortable working environment? Electrifying!

## HOW TO GET STARTED

Visit [ComEd.com/SmallBiz](https://www.comed.com/SmallBiz) to schedule a free energy assessment, which will help you identify energy efficiency opportunities for your business. From there, ComEd and your chosen Service Provider will assist you through every step of the process to make sure your needs are met.
